HTS150 Hand Truck Scale

Features

The HTS 150 is a unique portable scale combining a hand truck which is convertible into a four-wheel trolley, making it a versatile piece of equipment, with the added benefit of weighing and counting functions. Weighing and counting operations can be performed in the trolley configuration only.

Scale can be used in a variety of applications: warehousing, material handling, freight and checkweighing uses.

Conversion from trolley mode to hand truck mode can be easily performed in seconds.

Each unit is powered from an internal, rechargeable battery, giving up to 8 hours of usage. A recharge adapter is supplied.
